Nacogdoches County Road and Bridge Purchases Two New Tractors

The Nacogdoches County Road and Bridge Department purchased two new tractors to add to the counties existing fleet. The tractors have brush cutters that will help to address the mowing of right of ways. There are 800 miles of County Roads in Nacogdoches County with 1600 miles of right of ways.

The tractors are also featured with cabins that will supply safety to the county employees from the climate, as well as from insects and flying debris from the mowing.

The new tractors are a great asset to the Road and Bridge Department and will eventually replace one of the existing tractors they have now, which is between 15 to 20 years old.
