PRESS RELEASE

July 8, 2013

DFW Communications is Reprogramming Radios for Nacogdoches County

DFW Communications is at the Nacogdoches County Exposition and Civic Center reprogramming Nacogdoches County fire radios for the new Simulcast System. The radios were reprogrammed back in December for the mandatory narrowband transition. Nacogdoches County purchased an EF Johnson Simulcast System to improve radio traffic in outlying parts of the county, and to give county fire departments an optimal channel to operate with. The transition took some time waiting on the FCC to approve the system, however approval was finally granted in June so now the radios can be programmed and the new system can go online..
