PRESS RELEASE

December 11, 2012

Nacogdoches County has set up a vendor to come in for the next three days to program radios for the volunteer fire departments so that all departments can be P25 compliant, meeting the federal mandate of being in compliance by January 1, 2013.

This is a continued effort on behalf of Nacogdoches County to upgrade our communication system. Centralized Dispatch was recently opened and the next phase of progress will be the installation of simulcast channels to increase communication in rural areas of the County.
